GARY RIGGS, DESIGNER

Designer Gary Riggs has celebrated more than two decades in the interior design industry. Featured in several regional and national design publications, he has been heralded as a leader in conceptual design and is renowned for producing stunning and opulent environments. Beginning his career as an artist, Riggs brings intrinsic art principles into all of his interiors, taking great care to consider color, line, texture and balance in every space as though it were a canvas awaiting brush strokes of beauty. Gary's gift as an artist and painter provides a unique and rich approach to the interior design world translating into some of the most breathtaking rooms. In creating a residence, Gary urges his

clients to embrace the elements that are important to them as individuals and emphasizes that quality purchases are timeless and can be worked into changing décor through the years. He believes rooms should have a collected feel, as though purchases were made throughout a lifetime. He loves to mix the old with the new and loves to add blue and white porcelain when it fits. Gary Riggs Home's commercial clients enjoy the designer's outstanding attention to detail and industry knowledge that is needed in a professionally detailed workspace. As principal of one of the region's most sought-after design firms and retail showrooms, Gary Riggs remains true to his original vision to bring aesthetics into the environments in which we live and work. ■
